Espera® ES 7000 Series

AUTOMATIC WEIGH PRICE LABELING

Fully Automatic High-Speed Weigh Price Labeling

The ES 7000 provides fully automatic price labeling of the highest standard. Utilizing dynamic weighing technology, the system achieves a labeling output of up to 120 packs per minute with maximum precision. Time efficiency is enhanced by the minimization of changing times for labels, products or packs. The robust and compact stainless steel construction requires little space and cleaning is easy.

Features:

- No external compressed air required
- Hygienic stainless steel design and removable conveyor belts makes cleaning easy
- Automatic adjustment of product guides, and printer/labeling head position
- Label placement achieved via touchscreen
- Label position can be rotated in increments of 1 degree
- Automatic package height compensation up to 200 mm (7.87″)
- Fast change of label reels by servo device
- Easy replacement of thermal print heads without the need for service
- Sausage groove for round products
- Can weigh products up to 750 mm (29.5″) long
- Integrated checkweigher mode
- Full network integration possible
- 6 printers maximum, top or bottom or combination of top and bottom
- Sharp 300 dpi print quality
- High resolution 15″ color touchscreen control
- C labeler and full wrap labeler integration possible
- Online remote service available
