

BULLDOG

ROLLSTOCK PACKAGING MACHINE

The compact and reliable BullDog starts at less than \$85,000!

The BullDog provides the productivity and reliability of our larger rollstock machines in a small, efficient, no nonsense package. It's built on the strongest frame in the industry with high quality, readily available, brand name components including Turck™ cables, Maple™ systems controls and Busch™ pumps.

The strength, simplicity, safety and efficiency of the BullDog is backed up by dedicated Kansas City based UltraSource service and support and 130 years of packaging experience. Contact our Rollstock Packaging Specialists today to learn more about the newest innovation from UltraSource that comes with an attractive price, smaller footprint, and trusted reputation.

SIMPLE OPERATION

- Operation and safety functions are both monitored and controlled with the touch screen
- Increase production and save on labor with the user friendly design
- Touch screen has built in tutorial information for ease of use and training
- Quickly change out blades and switch recipe programs

Easily moved with a pallet jack or forklift.

Hygienic rollers are slotted to allow easy washdown and draining.

Simple touchscreen operation. All safety and operation functions are built into the touchscreen.

EWON internet connectivity ties PLC, touchscreen and cameras to UltraSource for field support.
