

## BULLDOG

### Rollstock Packaging Machine

Available with optional pendant arm, discharge conveyor, & more

The BullDog provides the productivity and reliability of our larger rollstock machines in a small, efficient, no nonsense package. It's built on the strongest frame in the industry with high quality, readily available, brand name components including Turck™ cables, Maple™ systems controls and Busch™ pumps.

The strength, simplicity, safety and efficiency of the BullDog is backed up by dedicated Kansas City based UltraSource service and support. Contact our Rollstock Packaging Specialists today to learn more about the reliable BullDog from UltraSource that comes with an attractive price, small footprint, and trusted reputation.
