

JWE BM20S

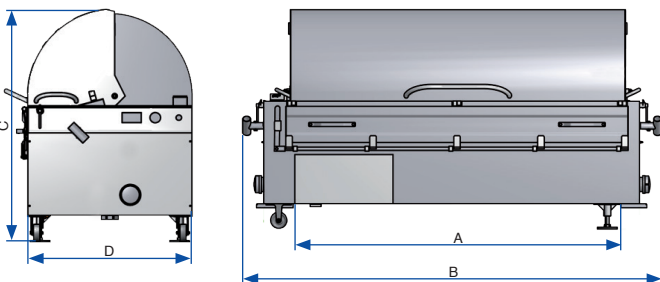

Combination Scalding/Dehairing Machine

The BM20S machine from JWE-Baumann allows automatic control of the scalding and dehairing process.

ACHIEVE SAFE AND RELIABLE OPERATION

Combination Scalding/Dehairing Machines (CSDM) are designed to quickly and efficiently remove hair from up to 15 hogs per hour.

The BM20S machine is designed to scald and dehair pigs ranging in size from 30-500 lbs. The front mounted hair trap makes cleaning quick and easy.

STANDARD FEATURES:

- » Stainless steel construction
- » Manual start/stop button operation
- » Water discharge on both sides
- » Single dehairing roller
- » Front mounted, hair trap for easy cleanout
- » Suckling pig execution to accommodate small pigs
- » 12kW heating capacity
- » Casters on operator end for mobility

Product Specifications

ELECTRICAL SETUP	230V/3phase/60Hz (60 amp)
DRIVE MOTOR	3-hp
HEATING CAPACITY	15kW
HOG WEIGHT MAX	575 lbs.
WATER VOLUME	80 gallons

Dimensions

A	78.74-in. (2000mm)
B	100.39-in. (2550mm)
C	52.56-in. (1335mm)
D	37.20-in. (945mm)
WEIGHT	1430-lbs.
