

ULTRAVAC 150

TABLETOP CHAMBER VACUUM PACKAGING MACHINE

Designed With Small Processors, Restaurants, And Supermarkets In Mind

The Ultravac 150 helps smaller operations realize the benefits of vacuum packaging. The Ultravac 150's small footprint of less than two square feet makes it an ideal choice for users who have limited counter space. And, the Ultravac 150 is efficient with cycle times of less than 35 seconds*.

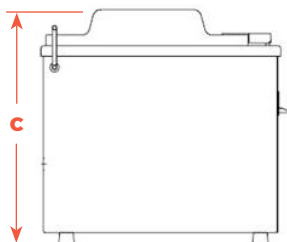

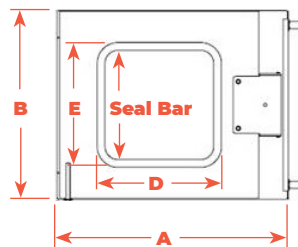

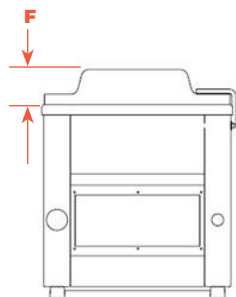

Features:

- » 0.5-hp vacuum pump
- » Removable sealing bar
- » Water resistant digital control panel
- » 3.5mm wide band seal
- » Cut wire

Product Specifications	
A. Length	18-in.
B. Width	15-in.
C. Maximum Height	27-in.
D. Working Height	16-in.
E. Seal Bar Length	11.8-in.
F. Chamber Length	14-in.
G. Chamber Width	15-in.
H. Chamber Depth	6.7-in.
Between Seal Bar and Back of Chamber	17.75-in.
Vacuum Pump	0.4kW (0.5-hp)
Net Weight	115-lbs.
Electrical Connection	110V, 60hz (single phase), 20 amps

*Depending on product

Compact & Efficient

Our smallest vacuum packaging machine yet, the Ultravac 150 takes less than two square feet (15" x 18") of valuable counter space, while allowing for various sized products to be sealed.

- » Clear acrylic dome lid
- » Removable seal bar made from durable aluminum
- » Stainless steel construction for easy washdown
- » Simple to operate digital control panel
- » Slide out electrical panel for easy maintenance
