Cliptechnik Semi-Automatic Double Clipper CDC Series

SEMI-AUTOMATIC CLIPPER

The CDC series double clipper is a solidly built machine that promotes safe operation, high productivity, and flexibility. The adjustable base of the machine makes it easy to connect with most standard stuffing machines. Enables manufacturers to provide new products quickly and easily, process existing products routinely and efficiently. The CDC process will help you save time and money.

Features:

- High flexibility, large caliber range, and simple operation
- Built to last with stainless steel and hygiene friendly design
- Pneumatically controlled and operated for easy maintenance and low cost
- Does not require any electricity, regardless of how CDC is configured
- Quick change of up to 4 different clip types without requiring any modification
- Can be connected to all commercially available stuffing machines

Cliptechnik Semi-Automatic Double Clipper CDC Series Cont.

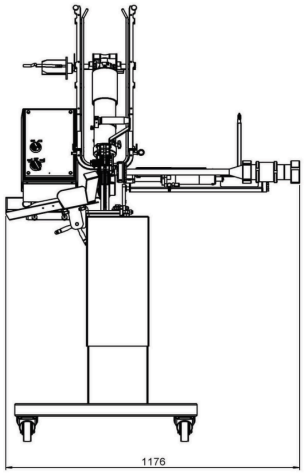
SEMI-AUTOMATIC CLIPPER

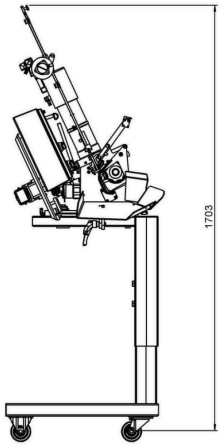
Adaptability and Consistency:

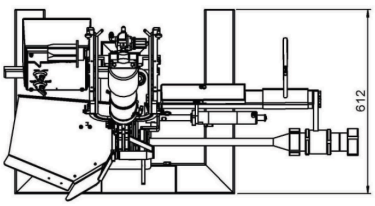
The CDC-series is characterized by its solid design combined secure, precise handling. All natural, fiber, cellulose and artificial casings available on the market can be processed as single sausages, sausage chains and rings up to caliber 120 mm depending to the model.

Options allow the CDC double clipper to be adapted to different work requirements. An optional counter module can be added that controls the knife and/or the loop inserter. A pneumatic casing brake also allows processing of very sensitive casings.

The Double Clipper CDC series can save you time and boost processing quickly. Even new staff can run the clipper after a short training. Consistently and safely portion sausages, soups, and cheese products quickly and cleanly with a CDC Series double clipper.







Options:

- Automated loop dispenser
- String dispenser for ring-shaped sausages
- Perfex loop inserter
- Control by counter module
- Spool-clip system
- Pneumatic casing brake
- Knife - string cutter
- Stuffing horn support - for smaller, craft production
- Swivelling stuffing horn support (patented)
